

EXPO 600 HIGHCOOL

EXPO 600 highcool is a professional lighting device that integrates high brightness, precise light control, and flexible color temperature adjustment. The manual zoom range of 15 ° -60 ° makes it easy to handle both long-distance spotlight projection and large-area soft dyeing. The compact and lightweight body is equipped with standard DMX/RDM control and physical knob dual-mode, meeting the reliable, efficient, and color accurate lighting needs of professional scenes such as studios, theaters, and live events.

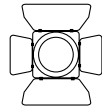

Key features:

- 600W high-efficiency light source
- 15 ° -60 ° manual zoom
- Dual color temperature options, 3200K/5600K.
- DMX, RDM, Knob dimming
- Lightweight and compact body, only 6kg with Zephyr included
- Lightweight and compact in size
- Equipped with protective film, effectively blocking light

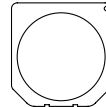

Application:

- Theatre , Church
- Cinematography
- Museums
- Exhibition Lighting

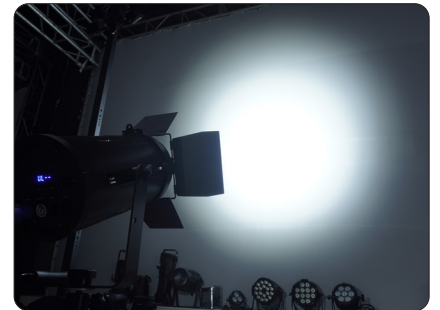

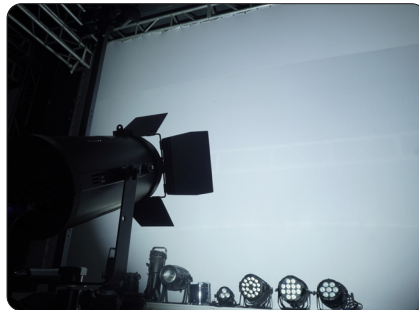

Accessories:
