

G4 ZOOM PAR

G4 Zoom Par is a high-performance LED zoom Par light that integrates dyeing, flashing, and auxiliary lighting functions. It adopts a high-power COB light source combined with multiple auxiliary RGB light beads, supports electric zoom from 4 ° to 25 °, and can flexibly cope with different application scenarios from narrow angle focusing to wide-angle dyeing. The device has a high protection level of IP65 and can be used both indoors and outdoors. With rich DMX channel modes and fine color adjustment capabilities.

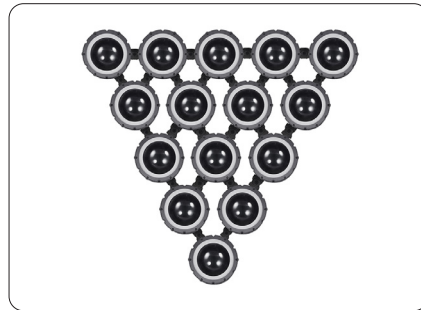

Key features:

- 120W COB RGBW LED beads+32 5050 RGB auxiliary light beads
- 4 ° -25 ° electric zoom
- The main light and auxiliary light can be independently controlled
- DMX512, Auto, master-slave, voice, and RDM control
- RGBW independent dimming and fine-tuning of each channel
- Supports a combination of dyeing, flashing, and auxiliary lighting effects, with rich lighting effects
- IP65 protection level

Application:

- Mobile performance
- Theater
- Stage
- Entertainment venue

Technical Data

Power supply:	AC100-240V, 50/60Hz	Control channels:	CH03/CH04/CH05/CH06/AH06/CH09/ CH13/CH19/RGB12CH/RGB17CH/CMY- 12CH/CMY17CH/CH15/CH28
LED:	120W	Control mode:	DMX ,RDM, Auto, master-slave, voice
Color:	RGBW	Housing:	Colour black
Zoom:	4°-25°	Size:	293 * 183 * 170mm
Power connection:	Power in & out	N.W.:	4.7kg
Signal connection:	3-pin XLR in & out	Environment:	IP65
